www.flairespresso.com

Introduction to Flair Products

The Flair Espresso brewing system offers customers five different models of espresso makers - The NEO Flex, Classic, PRO 2 and the flagship Flair 58 Family - that are most easily segregated into the three different brew heads that are available, the Standard, PRO 2 and Flair 58 Brew Heads. The differences in the brew heads can be seen below.

The remainder of this product guide is segregated based on the type of brew head that comes with each product and the related accessories.

The Flair 58 brew head features an industry standard 58 millimeter portafilter with a wooden barista handle and an 18 gram basket. But because of the compatibility of the 58 millimeter portafilter, users can purchase alternate baskets that accept anything from 7 grams to 28 grams dose.

The Flair 58 brew head is available in two models: the core Flair 58 which features Flair's three-tiered preheat temperature control system, or our Flair 58x model, which is completely manual but is electric enabled. All models of the Flair 58 brew head offer a stainless steel retractable plunger and custom pressure gauge.

The PRO 2 Brew Head comes standard on all PRO 2 Flairs and is larger than the Standard Brew Head in terms of water capacity and range of acceptable dose while also being more capable in terms of managing and utilizing brew ratios. The PRO 2 Brew Head comes standard with our custom pressure gauge, and features a removable spout for naked or bottomless brewing, which can be updated with a split spout. The portafilter basket is 46mm in diameter, is constructed of stainless steel, and the basket replicates the design of cafe-style portafilters.

Most Classic and Signature Flairs can be upgraded to the PRO 2 Brew Head. To upgrade, models must have a black adaptor ring on their portafilter base.

Standard BREW HEAD

- Dose:** 12-18 grams
- Reservoir:** 60ml
- Yield:** Up to 45ml

The Standard Brew Head comes with the NEO Flex and Classic models. While the NEO Flex comes with both the Bottomless 2-in-1 Portafilter and the Flow Control Portafilter, the Classic models only include the Bottomless 2-in-1. The Flow-Control 2 Portafilter is easy to recognize with its red color.

The Standard Brew Head is Flair's smallest and most portable brew head, featuring a 60ml reservoir and a dose range of 12-18 grams. The yield from the Standard Brew Head is roughly 45ml, or less than a volumetric double shot, however, the Standard Brew Head has all the capability to produce cafe-quality shots, just like any of our Flair models.

Parts of the Standard and PRO 2 Brew Heads are not interchangeable.

***To qualify for wholesale pricing all retailers must demonstrate they are currently active in the coffee or coffee equipment business and place a minimum order of \$500.**

Flair 58 BREW HEAD - The Flair 58 Plus 2

Welcome to an improvement on the best! To design the new Flair 58 Plus 2 we took some key feedback from the specialty coffee community. We've maintained all of the essential brewing features while completely redesigning the Preheat System's electronic interface and workflow. The Preheat System Controller is now fully integrated into the base of the Flair 58 Plus 2. And the wiring has been simplified to ensure the cleanest look on your counter with a small, Apple-style power adaptor. Now the best in manual espresso is even easier to use, and more beautiful on your countertop.

INTEGRATED PREHEAT CONTROLLER

SIMPLIFIED WIRING

Flair 58 Plus 2

Product Description: The Flair 58+ is a lever-based, manual espresso maker with an industry standard 58mm basket, a custom preheat control system with three temperature variations, an included pressure gauge and valve plunger for easy workflow, and custom upgrades over the rest of the Flair 58 family.

Flair 58 Plus 2

Part #: 05116559B
SKU: 608816116559
MSRP: \$685.00

Gross Weight (box of two): 24.5 lb (11.1 kg)
Dimensions (box of two): 19.5" x 13.6" x 13.2"
(49.7cm x 34.5cm x 33.5cm)

STANDARD BREW HEAD - NEO Flex

NEO Flex

Featuring a Custom Pressure Gauge and No-Preheat Cylinder

The NEO Flex was designed to be the most affordable and simplest way to brew espresso, and now it's even better. Starting in May of 2024, the NEO Flex will also feature a custom pressure gauge and a no-preheat, thin-walled cylinder, improving upon the workflow of the original Flex - while still keeping the price at less than \$100. Enrich your mornings without the splurge, with the NEO Flex.

NEO Flex

Product Description: The NEO Flex is an affordable manual espresso maker that brews real espresso at home. For less than \$100 dollars, users can choose between the Flow Control Portafilter, for convenient dial-in, or the Bottomless 2-in-1 Portafilter, for controlled brewing.

NEO Flex - Black

Part #: 0F116057B
SKU: 860006241285
MSRP: \$99.00

Gross Weight (box of ten): 42.1 lb (19.1 kg)
Dimensions (box of ten): 23.8" x 12.6" x 18.7"
(60.4cm x 32cm x 47.5cm)
HTS Code: 8435.10.00

Neo Flex with Carrying Case - Black

Part #: 0F116061B
SKU: 860006241261
MSRP: \$119.00

Gross Weight (box of five): 31 lb (14.2 kg)
Dimensions (box of five): 23" x 13.5" x 12.8"
(59cm x 34.4cm x 32.5cm)
HTS Code: 8435.10.00

Flair 58 BREW HEAD - The Flair 58

Flair 58

The Flair 58 and 58x were designed to be the pinnacle of espresso brewing from Flair. Very similar in design both Flair 58 models feature an industry standard 58mm wooden-handled portafilter, which comes standard with an 18 gram basket but is compatible with baskets between 7 - 28 grams dose. In addition, both models benefit from an integrated pressure gauge, a retractable piston for ease of rapid-fire extractions, a larger and more stable base and an elongated lever with a t-grip handle for comfort while brewing at higher pressures. The major difference between the two models is that the core Flair 58 features Flair's integrated three-tiered preheat control system, while the Flair 58x, or non-electric Flair 58, is 100% manual requiring a preheat with water from a kettle.

The Flair 58

Product Description: Flair's flagship! A manual espresso press with an electric, three-tiered preheat control system. Featuring a 58mm wooden-handled portafilter, pressure gauge and elongated lever with a t-grip handle for advanced brewing ergonomics.

Part #: 05113268B

SKU: 860006241254

MSRP: \$580.00

Gross Weight (box of two): 26 lb (11.8 kg)

Dimensions (box of two): 21" x 13" x 11" (53 x 33 x 28 cm)

HTS Code: 8435.10.00

Input current: 110-240V AC – 50-60 Hz

Output current 24V DC – 4 ampere

Preheat average temperature: 85C – 90C – 95C

The Flair 58x (electric-enabled)

Product Description: Flair's flagship! 100% manual, electric enabled espresso press featuring a 58mm wooden-handled portafilter, pressure gauge and elongated lever with a t-grip handle for advanced brewing ergonomics.

Part #: 05113220B

SKU: 860006241230

MSRP: \$495.00

Gross Weight (box of two): 24 lb (10.9 kg)

Dimensions (box of two): (53 x 33 x 28 cm)

HTS Code: 8435.10.00

PRO BREW HEAD - PRO 3 Series

NEW
PRODUCT

PRO 3

The Evolution Continues, Now Better Than Ever...

The Flair PRO 3 is the first update to the PRO manual brewing lineup in more than three years. But the wait was absolutely worth it, as the new PRO 3 maintains all the incredible brewing features of the PRO 2, like an all-stainless steel brew cylinder and portafilter and a custom pressure gauge, and adds Flair's new no-preheat, thin cylinder, and an integrated magnetic shot mirror. If you're brewing light roasts, and prefer a full preheat of your brew cylinder, we've also included the new preheat funnel, which makes it easier than ever to preheat while boiling your brew water.

Flair PRO 3, Black

Product Description: The new PRO 3 features a matte black finish with our copper-plated portafilter base and PRO 3 no-preheat brew head. Includes a custom pressure gauge, removable stainless steel spout, a handle grip, an improved portafilter basket, an integrated shot mirror, preheat funnel, and a custom carrying case.

Part #: 0P116269B

SKU: 647213148077-3

MSRP: \$325.00

Gross Weight (box of five): 30 lb (13.6 kg)

Dimensions (box of five): 20" x 14" x 10" (51cm x 35cm x 25cm)

HTS Code: 8435.10.00

Flair PRO 3, White

Product Description: The new PRO 3 features a white finish with our copper-plated portafilter base and PRO 3 no-preheat brew head. Includes a custom pressure gauge, removable stainless steel spout, a handle grip, an improved portafilter basket, an integrated shot mirror, preheat funnel, and a custom carrying case.

Part #: 0P116276W

SKU: 647213148091-3

MSRP: \$325.00

Gross Weight (box of five): 32 lb (14.5 kg)

Dimensions (box of five): 20" x 14" x 10" (51cm x 35cm x 25cm)

HTS Code: 8435.10.00

STANDARD BREW HEAD - Classic Series

Classic Series

The Classic is the original Flair Espresso Maker that turned the craft coffee industry on its head in 2016. The completely manual lever-press is capable of brewing between 6-9 BAR pressure, exactly what is needed to handcraft café quality espresso from wherever you are. The Classic includes our original pressure gauge kit, and comes standard with our custom carrying case and our Bottomless 2-in-1 Portafilter, which includes a removable spouted bottom and the ability for naked brewing. The Flair Classic represents the art of espresso making in its simplest form.

Flair Espresso Maker, Classic with Pressure Kit

Product Description: Manual press, non-electric, portable espresso maker with detachable brewing head and our bottomless 2-in-1 portafilter. Comes with everything user needs to make professional espresso at home, and upgrades the user to a pressure gauge and stainless steel tamper.

Part #: 0C147896N

SKU: 647213147896

MSRP: \$229.00

Gross Weight (box of five): 32 lb (14.5 kg)

Dimensions (box of five): 20" x 14" x 10" (51cm x 35cm x 25cm)

HTS Code: 8435.10.00

NEW PRODUCT

CAFÉ KETTLE

For the first time, Flair is offering their customers an affordable option for heating their brew water. Introducing the Flair Café Kettle, available in 110v and 220v models. Featuring three different heating modes, the Café Kettle is easy to use for any type of brewing. Choose the Quick Boil function to simply heat your water to a desired temperature. Need to keep your water at a certain temperature for up to 30 minutes? Just select the warm function. And, if you're looking to pre-boil your water to purify it, and then return it to the perfect brewing temperature, just select the Combo function.

Flair Café Kettle

Product Description: The Flair Café Kettle features a digital screen, three heating modes and a dial to select temperatures up to 100°C. The screen on the kettles varies between the 110v and 220v, with the 110v featuring a an enhanced digital output.

Flair Café Kettle - 110v

Gross Weight (box of twelve): 40.1 lb (18.2 kg)
Dimensions (box of twelve): 25.4" x 19.5" x 14.6"
(64.5cm x 49.5cm x 37cm)
HTS Code: 8435.90.100

The Royal Grinder

The Royal Grinder was born from the desire to provide Flair Espresso customers with the ability to manually grind beans that will provide the truest expression of their coffee while using their Flair, or any brewing method, all in an affordable package. Designed to ensure consistency and performance, the Royal's high efficiency, Swiss-made burrs, will grind light and dark roasts in a fluid motion. The Royal also features a full-wrap silicone grip for easy handling and our custom, "Lift, Turn & Lock" adjustment crown which ensures the grind setting won't slip during use.

Thumb Rest

The Royal Grinder

Product Description: Flair Espresso's only hand grinder, now with burrs that grind twice as fast, a thumb rest for better traction and torque, and a stainless steel retainer ring. Grind with confidence and experience the truest expression of your coffee, on your Flair or with any brewing method. Each Royal Grinder comes in a custom roll bag for safe transport and includes a cleaning brush.

Part #: 0G241216N

SKU: 860006241216

MSRP: \$159.00

Gross Weight (box of ten): 17 lb (7.7 kg)

Dimensions (box of ten): 21" x 11.5" x 7" (53cm x 29cm x 18cm)

Flair POWER TOWER

Electrify Your Grind with the Flair Power Tower.

The precision and portability of a hand grinder paired with the convenience of an electric setup. What more could a home barista ask for? How about an internal battery that provides an hour of unplugged grinding and compatibility with 3rd party grinders as well? Ask and you shall receive, for all these features are offered on Flair's newest addition, the Flair Power Tower.

ADDED FUNNEL INSERT FOR COMPATIBLE GRINDERS

COMPATIBLE 1ZPRESSO GRINDERS, WITH ADAPTOR KIT
